

ACHRAF BSBISS

Web Developer | (ROR) | future software Engineer

@ achraf.bsbiss11@gmail.com achraf_bsbiss Mohammédia

SUMMARY

Motivated junior developer with 2 years' experience in Ruby on Rails, aspiring to become a software engineer. Contributed to scalable web applications, improving software efficiency by 15% through code refactoring. Passionate about clean code, problem-solving, and staying updated with latest technologies.

EXPERIENCE

Backend Developer

Mibtech 05/2023 - 11/2023 Casablanca

Responsible for developing and implementing software applications (human resources app)

- Role-based user management:**
Implemented role-based access control for different user types (e.g., HR managers, employees, administrators).
Designed and developed user authentication and authorization systems.
- Request management system:**
Created a system for sending and managing requests to supervisors or higher management (n+1)
Implemented approval workflows and notification systems
- Team Availability and Scheduling:**
Developed a feature to check coworker availability and working schedules
Implemented a calendar integration system to display team members' work status (e.g., in office, remote, on leave)
- Event Management System:**
Developed a comprehensive event management module within the HR application
Implemented features for creating, scheduling, and managing company-wide events

Full Stack Developer

Varius conseil 11/2023 - Present Mohammédia, Morocco

Responsible for the development of software applications from scratch (telecom-app)

- User and Equipment Tracking:**
Developed a real-time tracking system for users and equipment
Implemented efficient geolocation data processing and storage
- Interactive Mapping:**
Designed backend services to support dynamic map rendering
Optimized data queries for fast retrieval of user and equipment locations
Implemented geofencing capabilities for location-based alerts
- Role-based user management:**
Implemented role-based access control for different user types (e.g., HR managers, employees, administrators).
Designed and developed user authentication and authorization systems.
- System Architecture**
Designed and implemented a microservices-based architecture for scalability
Utilized message queues for asynchronous processing of location updates
Implemented caching strategies to reduce database load and improve response times

EDUCATION

DUT

ewa(ecole de web avance) 2015 - 2017 Agadir, Morocco

STRENGTHS

Problem-Solving

Resolved complex software issues in previous role delivering a 40% reduction in long-standing unresolved problems.

Collaboration

Led a cross-functional team of four developers in the successful execution of a critical project on time and under budget.

Adaptability

Quickly incorporated new software updates in all projects, ensuring minimal disruption to workflow and maintaining project schedules.

SKILLS

Java	Ruby	Python	C	HTML
JavaScript	Selenium	Git	CSS	
Postgresql	mysql	sql		

PASSIONS

Coding

Enjoy building and optimizing software applications, always on the lookout for new programming languages and techniques to learn.

EDUCATION

Bachelor's in Computer Engineering

University Sorbonne Paris

📅 11/2023 - 09/2024 📍 Casablanca, Morocco
